

The [Blimunda project](#) aims to build the self-archiving policies of publishers and national scientific journals and record them in the international database [SHERPA / ROMEO](#)

. Within the project has also held a Portuguese translation of the website [SHERPA / ROMEO](#)

.

The registration policy for journals not covered by the Blimunda project is possible by completing the [form](#) .

The Blimunda project was developed to RCAAP project by the [Library and Documentation Division and Technology, New University of Lisbon](#) , [Faculty of Science](#)

.
